I have scanned a copy also into OLE. It appears from the research that you have performed from Permit #92619 that originally only 22 fixtures were paid for whereas the site inspection reflects that there are 26 existing fixtures (1 combination sink, 2 dishwashers, 6 floor sinks with adjacent source of water, 6 hand sinks, 1 ice machine, 1 mop sink, 1 dump sink, 4 lavatories, 1 urinal trough and 3 water closets). Terry separated the count between the bar side and the restaurant side and then the numbers which are circled, these are the shared restrooms. Please review/revise Sewer Count Sheet and let PAC know if any additional sewer connection fees need to be assessed.
