TRAIL TIPS

 Trails transform urban and natural environments. Users should expect to find wildlife, natural formations, and scenic trails within these environments.

Some trails follow flood channels that may present danger during flash flood season, typically during summer months. It is important to stay on paths for safety.

Weather is typically hot and dry during the summer months and cold in the winter months, with possible precipitation.

Refer to trail and park signs for open hours.

Dogs on leashes are allowed on urban trails. Dogs must be leashed at all times. Dog owners must remove all waste.

Bring everything out of the park that you brought in. Bring bags to carry your trash. Always deposit trash and recycling in the appropriate bins.

Thirty minutes of walking can burn an average of 130 calories. Walking is an excellent way to increase your calorie expenditure.

Be mindful of other trail users. Slower traffic stays to the right, pass on left.

Always tell someone where you are going and when you plan to return.

Be prepared for potential conditions. Depending on the time of year and the activity or experience you wish to achieve, special equipment may be needed for some terrain. The essentials for any trip include sunscreen, water, and perhaps a snack for energy.

Plan and map out your route before leaving.

Reporting Suspicious Activities:

- Emergencies – 911
- Non-Emergencies – 311
- Crime Stoppers – (702) 385-5555
- Non Emergencies – 311

- Graffiti Removal Hotline – (702) 633-1871

NEON TO NATURE

The Southern Nevada Regional Park, Trail and Open Space workgroup developed the brand “Neon to Nature” to emphasize and inform residents and visitors about the extraoridinary opportunities to experience a southern state of Las Vegas.

The purpose of the “Neon to Nature” Open Space & Trails System is to improve the quality of life and community character by providing an interconnected system of trails in Southern Nevada. These miles of existing, multi-use trails will allow people to hike, bike, run, or walk to parks, open space and recreation facilities operated by federal, state and local governments.
