Nevada Large Commercial Energy Audit

High Utility Bills?

Question?

Are your utility bills high for the size and type of business you operate? Would you like to know how you can increase the energy efficiency of your facilities and equipment and lower your energy usage? Are you a Southwest Gas industrial customer or a large commercial customer whose monthly usage reaches 15,000 therms or more?

Answer.

If you answered "Yes" to these questions, then the large commercial energy audit incentive we're currently offering can help you make *Smarter Greener Better* energy choices for your business.

Our energy audit program is Smarter because increased efficiency leads to higher production and less product waste; Greener because by reducing your businesses' energy usage, you, in turn, reduce your energy costs. You can keep a little green for you, and make our environment greener, too; and Better because you'll learn the steps you need to take to improve, replace, or tune-up your existing facilities and equipment.

Energy Audit

An Energy Audit might be right for your business if you have one or more of the following:

- *A facility that is more than 10 years old*
- *Single-pane windows*
- *Equipment that is in need of a tune-up*
- *Equipment that needs to be replaced*
- *No existing energy manager or energy plan for your facility*

Rebate Level

This program is limited to one energy audit per facility. Incentive awards are 50 percent of the total cost of the audit up to a maximum of \$5,000.

Application Details

This program is limited to industrial or large commercial customers in Nevada whose monthly usage reaches 15,000 therms or more. Rebates are available for audits performed by a Southwest Gas approved contractor from **Nov. 1, 2009 through Nov. 30, 2011 or until program funds are depleted**, whichever comes first. Due to limited funding, please submit your rebate application as soon as possible after the audit.

Note: *Submitting an application does not guarantee funding. Applications will be reviewed on a first-come, first-served and case-by-case basis.*
