

What should I do if I see teens fighting?

Don't try to decide whether it is real or just play. Get a description of all parties and call it in. Get the direction of travel if they leave. Even if they are just goofing off we can still cite them for various infractions such as pedestrian in roadway, walking in street where sidewalks provided, etc. We can also call their parents at work to come pick them up. If we cannot identify them through an identification or a parent then we can arrest them depending upon the seriousness of the incident. Either way it is important that we modify their behavior.
