

North Las Vegas Fire Department Fire Explorer Program

The North Las Vegas Fire Department (in cooperation with the IAFF Local 1607 and the Las Vegas Area Council) has designed a Fire Explorer Program. The Program is not intended to be a direct recruiting tool for future firefighters, rather, fire exploring gives young people valuable insight into the firefighting profession.

This insight allows the individual to decide if they desire to pursue a greater role in the fire service.

By participating in the Fire Explorer Program, the individual gains personal confidence, learns how to use various tools, develops mechanical skills and aptitude, and gains greater awareness of personal and fire safety. Explorers attend weekly meeting, volunteer activities, and may participate in a sponsored ride-along program. Fire Explorers are also encouraged to attend Fire Explorer Academics, take college level fire science courses and participate in fire department and explorer post activities and events.
