

## GROSS REVENUE BUSINESS LICENSE FEE SCHEDULE AND REPORTING INSTRUCTIONS

This schedule is to be used in the determination of business license fees which are based on semi-annual gross revenue. All license fees specified herein as determined on the basis of gross sales/gross revenues shall be calculated on the gross revenues prior to the last day of June and the last day of December of each year, and shall be due and payable on the last day of July and the last day of January immediately following the period of calculation, provided: that, if the due date falls on a weekend, a holiday, or a day on which the department is closed, the fees shall be due and payable on the next succeeding workday.

Calculation of fees for a new license based on gross revenue require the applicant to estimate the probable amount of revenue during the initial license period. This amount will be used to determine the initial license fee; provided, however, that **no fee shall be less than \$25.00.**
