08/28/18: Sammy, the owner of this property came in today to pull a meter tag permit for the other units. At the time of this application I was under the impression that he only owned unit C and since no work was being done, I issued him a meter tag only permit. At the time, he did not state there were other units. I told Sammy he must come back with an electrical contractor as a 4 plex is considered a commercial building to pull the other meter tag only permits. He understood. I must not have "next staged" his permit to "issued" originally so I did it today - LB
