January 18, 2017 (Revised)

Nevada Revised Statute 540.091 (a.k.a. Assembly Bill No. 333) requires local governmental agencies to file water use reports with the Nevada Division of Water Resources (NDWR) for all new construction and additions to commercial/industrial projects which use five (5) acre-feet or more of water per year. AB 333 also provides that the local governmental agency collect a fee of \$75.00 plus \$0.50 for each acre-foot of water, or fraction thereof, as well as a \$10.00 administrative fee.

Please complete and return the attached form to the City of North Las Vegas Development & Flood Control Department with the **initial** civil improvement plan submittal package regardless of calculated usage.

To aid in the completion of the form and calculation of the fee, the following table summarizes construction categories expected to use five (5) acre-feet or more of water per year. Sample fee calculations are also provided below.

General Water-Use Categories

UNITS or ACRES that translate to 5 ac-ft/yr use

Apartments	15 units
Condominiums	15 units
Hotel (<200 rooms)	11 units
Hotel (>200 rooms)	16 units
Commercial/Industrial	1.2 acres
Golf Course	0.7 acres
Lake	0.4 acres
Motel	0.9 acres
Park	0.7 acres

Sample Fee Calculations:

400 Apartment Units:

$\frac{400 \text{ apartment units}}{15 \text{ units per 5 ac-ft use}} \times 5 \text{ ac-ft} \times \frac{\$0.50}{\text{ac-ft}} + \$75.00 \text{ base fee} + \$10 \text{ admin fee} = \$151.67 \text{ total fee}$

100 Acre Golf Course:

$\frac{100 \text{ acres}}{0.7 \text{ acres per 5 ac-ft use}} \times 5 \text{ ac-ft} \times \frac{\$0.50}{\text{ac-ft}} + \$75.00 \text{ base fee} + \$10 \text{ admin fee} = \$442.14 \text{ total fee}$

Final fees will be computed and assessed in the fee estimate at mylar approval. This fee is in addition to any other fees required by the Utilities Department.

Engineering personnel are available to assist applicants in completing the form. For assistance or additional information, please contact the Development & Flood Control Department at (702) 633-1561.

Respectfully,

Robert A. McLaughlin, P.E., Manager
Public Works/Development & Flood Control
