5. ADJUSTMENTS OF EXISTING UTILITIES AND COST THEREOF:

The Developer shall provide for adjustments necessary to all existing utilities because of the work required by the Agreement, without cost to the City.

6. FULL COMPLIANCE WITH CITY REQUIREMENTS:

The Developer shall perform and complete all such improvements in accordance with the regulations, standards, specifications and ordinances of the City, and approval of the final construction map shall not be made until all street plans and profiles, street light layout, architectural arrangement of construction units, and all other such plans and specifications as may be required have been submitted to, and approved by, the various City departments concerned.

The Developer shall start work on said improvements within thirty (30) days from the effective date of this Agreement or upon notification by the Director. Said improvements shall be completed within three (3) months after substantial completion of the buildings or structures which the same are designed to serve, or one (1) year after the date of approval of the final map, except when work falling under this Agreement also falls under the agreement known as Restrictive Covenant Running with the Land, then said improvements shall be completed within three (3) months from the date of notification under the Restrictive Covenant Running with the Land agreement, or within such other time as is approved by the Director.

Also, after excavation or placement of gravel, if the subgrade and/or gravel base material is left exposed and in the opinion of the Director is not properly maintained thus causing either a rough riding surface or a dust problem, the Director may require the Developer to do whatever is necessary to provide an adequate travelway. If a detour is needed, the Director shall determine to what extent the detour shall be maintained, which shall include the placing of temporary paving if the detour is to be used for an extended period of time.

Final acceptance of the work will not be made by the City until the area subject to this Agreement and adjacent property has been cleared, to the satisfaction of the Director, of all rubbish, surplus materials and equipment resulting from the contractor's operations.

9. WARRANTY:

The Developer is responsible should any original or developed defect(s) or failure(s) appear within a period of one year from the date of acceptance of the work by the City. The Developer shall, at its own expense, make good such defects and failures and make all replacements and adjustments required, within thirty (30) days after being notified by the City to do so. All repairs shall be subject to the approval of the Director.

10. REQUIREMENTS OF PERFORMANCE BOND OR OTHER SECURITY:

The Developer shall furnish, without cost to the City, a surety and performance bond, cash deposit with cash in lieu of bond agreement, or other form of security or surety established by City ordinance to be a proper form of performance security or surety. The security or surety furnished shall be in favor of the City for an amount which will cover the full cost of said improvements plus contingencies as established by City ordinance, shall be approved and accepted by the City, and shall be conditioned upon the Developer completing the improvements within the prescribed period. In the event the Developer fails to complete the improvements within the prescribed period and the City exercises its option to complete the improvements, said performance security or surety shall be used for the payment of the costs of completion of said improvements.

If the construction or installation of any improvements or facilities are not completed within the time period established herein or as prescribed by the Director or if such construction is not in accordance with applicable regulations, standards, specifications and ordinances of the City, then, in any of such events, the City may, at its option, proceed to complete said improvements at the expense of the Developer under any of the security or surety pledged pursuant to this Agreement and ordinances relating to such security or surety.

Any application for release of the performance security or surety upon the completion of the improvements by the Developer shall not be granted unless accompanied by a written certificate from the Director stating that all requirements have been completed in accordance with the terms of this Agreement.

11. CERTIFICATE OF OCCUPANCY:

No certificates of occupancy, temporary or permanent, shall be granted until such time as the off-site improvements have been completed to the satisfaction of the Director, in accordance with this Agreement and the terms of the performance security or surety.

Any inspections or subsequent approvals undertaken by the City pursuant to express or implied terms of this Agreement are undertaken solely to insure compliance with the terms of this Agreement and are not undertaken for the benefit of any individual or group of individuals as members of the public. It is not intended by any of the provisions of any part of this Agreement to create in the public or any member thereof a third party beneficiary hereunder, or to authorize anyone not a party to this Agreement to maintain a suit for personal injuries or property damage pursuant to the terms or provisions of this Agreement.
