**City of North Las Vegas  
Bid B1541 Street Sweepers  
Addendum No. 1**

This Addendum clarifies issues that were raised at the Pre-Bid meeting conducted on August 21, 2018, and changes the Deadline for Questions and Bid Due Date. A copy of this addendum must be signed and returned with your proposal.

**Question 1.** The specifications of this Bid are written in such a narrow way that only one vendor can provide this product. Does the City want to entertain Bids for other types of street sweepers, or is the City firm on these specifications? *Answer: The City will accept and review Bids from any vendor who can provide a product of a quality that fulfills the specifications documented in the Bid document. In order to clarify the specifications, the City has changed some of the specifications in the Bid document with this Addendum No. 1 as follows:*

- A. Introductory paragraph of specifications provides that the specification contains fifteen pages and twenty seven clauses. It should be fourteen pages.
- B. Specification 1.3 – note “or comparable quality” after phrase “grade 304 stainless steel.”
- C. Specification 3.1 – First sentence should read “Sweeper shall be powered by a single Cummins **or equivalent** ISB 280, 6.7L, 6-cylinder, turbocharged inter-cooled diesel engine with a **minimum** horsepower rating of 280 HP @ 2300 engine RPM.”
- D. Specification 6.2.1 – “A **minimum** 40 micron tank fill neck strainer in each tank.”
- E. Specification 7.1 – Should read “Broom will be located center of sweeper, not mounted rear of frame. The main broom must be PM10 certified”.
- F. Specification 20.7 – “Camera shall monitor **and** display the area behind the sweeper whenever the sweeper is moving in reverse or dumping.”
- G. Specification 20.8 – Delete last sentence which reads: “Sweeper without one button ‘Ergo Switch’ design is not acceptable.”
