**Disclaimer:** It is the customer's sole responsibility to verify current certification and to ensure that the backflow assembly is in satisfactory operating condition at all times. Testing must be performed by a City of North Las Vegas (City/CNLV) authorized testing company that is listed on the City's website. You may wish to compare several testers on the list, as their services and prices may vary.

The City is not responsible for and does not guarantee workmanship of these companies.

The customer is responsible to oversee that the selected test company emails the test reports to CNLV to avoid a fine for late test reports.
