Dear Ms. Evans,

**PREFABRICATED STEEL JOISTS**

The undersigned, in consideration of being issued permits for construction prior to Final Steel Joist approval, hereby assumes all risk, financially and otherwise, for any construction performed that may need to be removed once the steel joist calculations and layout are reviewed if they are not appropriate to the structure.

I understand that no inspections will be performed on roof sheathing and framing until the steel truss calculations are approved and issued. I further understand that steel joist approval may take up to ten (10) working days (or longer if there are problems) from the date of submission.
